ACOUSTIC MICROSTREAMING
Acoustic microstreaming: detection and measurement around ultrasonic scalers. Khambay BS, et al. 626

*ACTINOBACILLUS ACTINOMYCETEMCOMITANS*
Bacterial adhesion of *Actinobacillus actinomycetemcomitans* serotypes to titanium implants: SEM evaluation. A preliminary report. Ökte E, et al. 1376
Effect of initial periodontal therapy on the frequency of detecting *Bacteroides forsythus, Porphyromonas gingivalis,* and *Actinobacillus actinomycetemcomitans.* Takamatsu N, et al. 574
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
A novel insertion sequence increases the expression of leukotoxicity in *Actinobacillus actinomycetemcomitans* clinical isolates. He T, et al. 1261
Periodontal pathogens stimulate CC-chemokine production by mononuclear and bone-derived cells. Jiang Y, et al. 1472
Persistence of oral colonization by the same *Actinobacillus actinomycetemcomitans* strains(s). Saarela MH, et al. 504
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans.* Madinier IM, et al. 888

*ACTINOMYCES VISCOSUS*
Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

ADAPTATION, PHYSIOLOGICAL
Relationship of stress, distress, and inadequate coping behaviors to periodontal disease. Genco RJ, et al. 711

ADENOMA, PLEOMORPHIC
Myoepithelioma of the gingiva. Report of a case. Piattelli A, et al. 683

AEROSOLS
Aerosol and splatter production by focused spray and standard ultrasonic inserts. Rivera-Hidalgo F, et al. 473

AGED
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982

AGGREGATION
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406

ALENDRONATE/therapeutic use
Disposition of alendronate following delivery in a rat jaw. Yaffe A, et al. 893
Qualitative analysis of peripheral peri-implant bone and influence of alendronate sodium on early bone regeneration. Meraw SJ, et al. 1228
Use of alendronate in peri-implant defect regeneration. Meraw SJ, et al. 151

ALGORITHMS/diagnostic use
Option-4 algorithm for third generation disc probe: agreement of selected site-specific relative attachment level measurements and detection of longitudinal site-specific attachment level change. Breen HJ, et al. 159

ALKALINE PHOSPHATASE
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Molecular diagnosis of hypophosphatasia with severe periodontitis. Watanabe H, et al. 688

ALKALINE PHOSPHATASE/analysis
Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951

ALKALINE PHOSPHATASE ACTIVITY
Periodontal ligament cells from insulin dependent diabetics exhibit altered alkaline phosphatase activity in response to growth factors. Hobbs, HC, et al. 736

ALVEOLAR BONE
Qualitative analysis of peripheral peri-implant bone and influence of alendronate sodium on early bone regeneration. Meraw SJ, et al. 1228

ALVEOLAR BONE/anatomy and histology
Effects of cyclosporin A on alveolar bone: an experimental study in the rat. Fu E, et al. 189

ALVEOLAR BONE LOSS
Relationships between longitudinal changes in radiographic alveolar bone height and probing depth measurements data from postmenopausal women. Pilgram TK, et al. 829

ALVEOLAR BONE LOSS/etiology
A radiographic evaluation of bone healing around submerged and non-submerged dental implants in beagle dogs. Fiorellini JP, et al. 248
Smoking and patterns of bone loss in early-onset periodontitis. Mullally BH, et al. 394

ALVEOLAR RIDGE AUGMENTATION
A classification system for sinus membrane perforations during augmentation procedures with options for repair. Vlassis JM, et al. 692

AMERICAN ACADEMY OF PERIODONTOLOGY

The pathogenesis of periodontal diseases. Informational paper. 457
Program outline, Annual Meeting 1999. 703
Tobacco use and the periodontal patient. Position paper. 1419

# Index

AMLODIPINE/adverse effects
Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63
AMOXICILLIN/therapeutic use
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239
ANDROGENS
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilalaratne A, et al. 1017
ANDROGENS/physiology
Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604
ANIMAL STUDIES
Anorganic bovine bone supports osteoblastic cell attachment and proliferation. Stephan EB, et al. 364
Bone regeneration by recombinant human bone morphogenetic protein-2 in rat mandibular defects. An experimental model of defect filling. Higuchi T, et al. 1026
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
Disposition of alendronate following delivery in a rat jaw. Yaffe A, et al. 893
The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289
Effective laser ablation of bone based on the absorption characteristics of water and proteins. Spencer P, et al. 68
Effects of cyclosporin A on alveolar bone: an experimental study in the rat. Fu E, et al. 189
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Laser irradiation of bone: II. Healing response following treatment by $CO_2$ and Nd:YAD lasers. Friesen LR, et al. 75
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330
A new injectable calcium phosphate biomaterial for immediate bone filling of extraction sockets: a preliminary study in dogs. Gauthier O, et al. 375
Periodontitis in the house musk shrew (*Suncus murinus*): a potential animal model for human periodontal disease. Takata T, et al. 195
Qualitative analysis of peripheral peri-implant bone and influence of alendronate sodium on early bone regeneration. Meraw SJ, et al. 1228
A radiographic evaluation of bone healing around submerged and non-submerged dental implants in beagle dogs. Fiorellini JP, et al. 248
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
Role of intramarrow penetration in osseous repair: a pilot study in the rabbit calvaria. Majzoub Z, et al. 1501
Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951
Use of alendronate in peri-implant defect regeneration. Meraw SJ, et al. 151
ANTIBODIES
Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730
Humoral immunity to stress proteins and periodontal disease. Lopatin DE, et al. 1185
ANTIBODIES, ANTI-NEUTROPHIL CYTOPLASMIC
Periodontitis and anti-neutrophil cytoplasmic antibodies in systemic lupus erythematosus and rheumatoid arthritis: a comparative study. Novo E, et al. 185
ANTIBODIES, BACTERIAL
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis*. Saito S, et al. 610
ANTIBODIES, MONOCLONAL
Monoclonal antibodies against integrin subunits α6 and β1 inhibit migration of gingival epithelium in organ culture. Gräber H-G, et al. 388
ANTIBODIES, SERUM
Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449
ANTIGENS, K
Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730
ANTI-INFLAMMATORY AGENTS, NON-STEROIDAL
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
APOPTOSIS
Age-dependent changes in the distribution of BrdU- and TUNEL-positive cells in the murine gingival tissue. Sakai T, et al. 973
Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179

ARTHRITIS, RHEUMATOID
Periodontitis and anti-neutrophil cytoplasmic antibodies in systemic lupus erythematosus and rheumatoid arthritis: a comparative study. Novo E, et al. 185
ASCORBATES
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
ASPARTATE AMINOTRANSFERASE
Relationship of the subgingival microbiota to chairside test for aspartate aminotransferase in gingival crevicular fluid. Wong M-Y, et al. 57
AZITHROMYCIN/therapeutic use
Periodontal tissue disposition of azithromycin in patients affected by chronic inflammatory periodontal diseases. Blandizzi C, et al. 960

B

BACTERIAL ADHESION
Bacterial adhesion of *Actinobacillus actinomycetemcomitans* serotypes to titanium implants: SEM evaluation. A preliminary report. Ökte E, et al. 1376
Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618
BACTERIAL COLONIZATION
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239
BACTERIAL INFECTION/prevention and control
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
BACTERIOSTATIC AGENTS
Bacteriostatic effects of hyaluronic acid. Pirnazar P, et al. 370
*BACTEROIDES FORSYTHUS*
Effect of initial periodontal therapy on the frequency of detecting *Bacteroides forsythus, Porphyromonas gingivalis*, and *Actinobacillus actinomycetemcomitans*. Takamatsu N, et al. 574
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
BEHCET'S SYNDROME
Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449
BETA-LACTAMASES
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
BIOLOGICAL MARKERS
Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848
BLACKS
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351
BLEEDING
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369
Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848
BLEEDING/epidemiology
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
BLOOD VESSELS
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330
Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848
BONE AND BONES
Long-term evaluation of 282 implants in maxillary and mandibular molar positions: a prospective study. Becker W, et al. 896
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
BONE AND BONES/surgery
Effective laser ablation of bone based on the absorption characteristics of water and proteins. Spencer P, et al. 68
BONE, DEMINERALIZED
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554
BONE DENSITY
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982
Long-term evaluation of 282 implants in maxillary and mandibular molar positions: a prospective study. Becker W, et al. 896
BONE DISEASES, METABOLIC
Influence of estrogen and osteopenia/osteoporosis on

# Index

clinical periodontitis in postmenopausal women. Reinhardt RA, et al. 823

BONE, FREEZE-DRIED
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554

BONE INDUCTION ACTIVITY
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353

BONE LOSS
Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032

BONE MARROW PENETRATION
Role of intramarrow penetration in osseous repair: a pilot study in the rabbit calvaria. Majzoub Z, et al. 1501

BONE MATRIX
Anorganic bovine bone supports osteoblastic cell attachment and proliferation. Stephan EB, et al. 364
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Modification of an osteoconductive anorganic bovine bone mineral matrix with growth factors. Jiang D, et al. 834

BONE REGENERATION
The accuracy of radiographic methods in assessing the outcome of periodontal regenerative therapy. Toback GA, et al. 1479
Bone regeneration by recombinant human bone morphogenetic protein-2 in rat mandibular defects. An expeerimental model of defect filling. Higuchi T, et al. 1026
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Evidence for healing of Class II and Class III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490
Laser irradiation of bone: II. Healing response following treatment by $CO_2$ and Nd:YAD lasers. Friesen LR, et al. 75
Long-term results of a minimally invasive surgical approach for bone grafting. Harrel SK, et al. 1558
Modification of an osteoconductive anorganic bovine bone mineral matrix with growth factors. Jiang D, et al. 834
A new injectable calcium phosphate biomaterial for immediate bone filling of extraction sockets: a preliminary study in dogs. Gauthier O, et al. 375
Qualitative analysis of peripheral peri-implant bone and influence of alendronate sodium on early bone regeneration. Meraw SJ, et al. 1228
Role of intramarrow penetration in osseous repair: a pilot study in the rabbit calvaria. Majzoub Z, et al. 1501
Use of alendronate in peri-implant defect regeneration. Meraw SJ, et al. 151
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853

BONE REMODELING
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330

BONE RESORPTION/etiology
A radiographic evaluation of bone healing around submerged and non-submerged dental implants in beagle dogs. Fiorellini JP, et al. 248

BONE RESORPTION/prevention and control
Disposition of alendronate following delivery in a rat jaw. Yaffe A, et al. 893

BONE SUBSTITUTES
A new injectable calcium phosphate biomaterial for immediate bone filling of extraction sockets: a preliminary study in dogs. Gauthier O, et al. 375
Risk assessment of bovine spongiform encephalopathy transmission through bone graft material derived from bovine bone used for dental applications. Sogal A, et al. 1053

C

CADHERINS
N-Cadherin expression during periodontal ligament cell differentiation in vitro. Lin W-L, et al. 1039

CAFFEINE/adverse effects
Combined effects of caffeine and prostaglandin E on the proliferation of osteoblast-like cells (UMR106-01). Kamagata-Kiyoura Y, et al. 283

CALCIUM CHANNEL BLOCKERS/adverse effects
Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63

CALCIUM PHOSPHATE
A new injectable calcium phosphate biomaterial for immediate bone filling of extraction sockets: a preliminary study in dogs. Gauthier O, et al. 375

*CAMPYLOBACTER RECTUS*
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861

# Index

Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

CARCINOMA, SQUAMOUS CELL/physiopathology
Expression of p53 protein and Ki67 antigen in gingival hypoplasia induced by nifedipine and phenytoin. Saito K, et al. 581

CD14
Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274
Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

CELL ADHESION
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435

CELL ADHESION MOLECULES
Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

CELL AGING
Age-dependent changes in the distribution of BrdU- and TUNEL-positive cells in the murine gingival tissue. Sakai T, et al. 973

CELL ATTACHMENT
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144

CELL CULTURE
N-Cadherin expression during periodontal ligament cell differentiation in vitro. Lin W-L, et al. 1039
Chlorhexidine-induced changes to human gingival fibroblast collagen and non-collagen protein production. Mariotti AJ, et al. 1443
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992

CELL DIFFERENTIATION
N-Cadherin expression during periodontal ligament cell differentiation in vitro. Lin W-L, et al. 1039

CELL GROWTH INHIBITION
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435

CELL PHYSIOLOGY
Age-dependent changes in the distribution of BrdU- and TUNEL-positive cells in the murine gingival tissue. Sakai T, et al. 973

CELLS, 2T9
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353

CELLS, CULTURED
Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951

CELLULOSE, OXIDIZED
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369

CHEMOKINES, CC
Periodontal pathogens stimulate CC-chemokine production by mononuclear and bone-derived cells. Jiang Y, et al. 1472

CHEMOTACTIC FACTORS
Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194

CHERUBISM
Gingival fibromatosis combined with cherubism and psychomotor retardation: a rare syndrome. Yalçin S, et al. 201

CHLORHEXIDINE/adverse effects
Chlorhexidine-induced changes to human gingival fibroblast collagen and non-collagen protein production. Mariotti AJ, et al. 1443

CHLORHEXIDINE/therapeutic use
Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646

CHOLESTEROL
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429

CIPROFLOXACIN/therapeutic use
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

CITRIC ACID/therapeutic use
Effect of a carbon dioxide laser on periodontally involved root surfaces. Misra V, et al. 1046
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
In vitro stimulation of human gingival epithelial cell attachment to dentin by surface conditioning. Vanheusden AJ, et al. 594

CLARYTHROMYCIN/therapeutic use
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

CLAVULANIC ACID/therapeutic use
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

# Index

Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239
CLEFT LIP/complications
Periodontal disease in patients with cleft palate and patients with unilateral and bilateral clefts of lip, palate, and alveolus. Gaggl A, et al. 171
CLEFT PALATE/complications
Periodontal disease in patients with cleft palate and patients with unilateral and bilateral clefts of lip, palate, and alveolus. Gaggl A, et al. 171
CLINICAL RESEARCH
Clinical versus statistical signifiance. Rethman MP, et al. 700
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
Morphological study of root surfaces in teeth with adult periodontitis. Abelleira AC, et al. 1283
Smoking influences decision making in periodontal therapy: a retrospective clinical study. Papantonopoulos GH. 1166
CLINICAL TRIALS
Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
CLINICAL TRIALS, CONTROLLED
Assessment of a novel screening test for neutrophil collagenase activity in the diagnosis of periodontal diseases. Mancini S, et al. 1292
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
Effect of periodontitis and smoking on blood leukocytes and acute-phase proteins. Fredriksson MI, et al. 1355
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
Morphological study of root surfaces in teeth with adult periodontitis. Abelleira AC, et al. 1283
CLINICAL TRIALS, RANDOMIZED
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
COLLAGEN
Chlorhexidine-induced changes to human gingival fibroblast collagen and non-collagen protein production. Mariotti AJ, et al. 1443
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Spontaneous repositioning of pathologically migrated teeth. Gaumet PE, et al. 1177
COLLAGEN/therapeutic use
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510
COLLAGENASE/analysis
Assessment of a novel screening test for neutrophil collagenase activity in the diagnosis of periodontal diseases. Mancini S, et al. 1292
COMPARISON STUDIES
The accuracy of radiographic methods in assessing the outcome of periodontal regenerative therapy. Toback GA, et al. 1479
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
Effective laser ablation of bone based on the absorption characteristics of water and proteins. Spencer P, et al. 68
A 15-month evaluation of the effects of repeated subgingival minocycline in chronic adult periodontitis. van Steenberghe D, et al. 657
Growth factors regulated expression of osteoblast-associated genes. Strayhorn CL, et al. 1345
Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and non-smokers with refractory periodontitis: a 5-year study. Söder B, et al. 761
Merits of soft nitriding scalers. Fujimura T, et al. 1339
A minimally invasive surgical approach for periodontal regeneration: surgical technique and observations. Harrel SK. 1547
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset

periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
Periodontal pathogens stimulate CC-chemokine production by mononuclear and bone-derived cells. Jiang Y, et al. 1472
Periodontitis and anti-neutrophil cytoplasmic antibodies in systemic lupus erythematosus and rheumatoid arthritis: a comparative study. Novo E, et al. 185
Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63
Site-specific attachment level change detected by physical probing in untreated chronic adult periodontitis: review of studies 1982-1997. Breen HJ, et al. 312
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510

CONNECTIVE TISSUE
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilalaratne A, et al. 1017

CONNECTIVE TISSUE/surgery
Human histologic evaluation of root coverage obtained with a connective tissue with partial thickness double pedicle graft. A case report. Harris, RJ. 813
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239

CONTRACEPTIVES, ORAL/adverse effects
Leiomyosarcoma presenting as a mandibular gingival swelling: a case report. Goldschmidt PR, et al. 84

COTININE/adverse effects
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens,* and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

CREST SYNDROME
CREST syndrome and periodontal surgery: a case report. Stanford TW, Jr., et al. 536

CROSS-SECTIONAL STUDIES
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982

CROWNS
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098

CROWNS/adverse effects
Microbiota of successful osseointegrated dental implants. Lee KH, et al. 131

CULTURE ASSAY
Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618

CYCLOOXYGENASE-2
Involvement of cyclooxygenase-2 in interleukin-1α-induced prostaglandin production by human periodontal ligament cells. Noguchi K, et al. 902

CYCLOSPORIN
Cyclosporin A regulates interleukin-1β and interleukin-6 expression in gingiva: implications for gingival overgrowth. Myrillas TT, et al. 294

CYCLOSPORIN A/adverse effects
Clinical effects of periodontal therapy on the severity of cyclosporin A-induced gingival hyperplasia. Kantarci A, et al. 587
Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long-term results. Ilgenli T, et al. 967
Effects of cyclosporin A on alveolar bone: an experimental study in the rat. Fu E, et al. 189
Expression of p53 protein and Ki67 antigen in gingival hypoplasia induced by nifedipine and phenytoin. Saito K, et al. 581
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464

CYTOKINES
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
Cyclosporin A regulates interleukin-1β and interleukin-6 expression in gingiva: implications for gingival overgrowth. Myrillas TT, et al. 294
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
The influence of interleukin gene polymorphism on expression of interleukin-1β and tumor necrosis factor-a in periodontal tissue and gingival crevicular fluid. Engebretson SP, et al. 567
Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274
Role of oral bacteria in respiratory infection. Scannapieco FA. 793

CYTOMEGALOVIRUS
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478

**D**

DEMOGRAPHY
The influence of general health and socio-cultural variables on the periodontal condition of pregnant women. Machuca G, et al. 779

DENTAL CALCULUS/epidemiology
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
DENTAL CALCULUS/prevention and control
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803
DENTAL CEMENTUM
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951
DENTAL CEMENTUM/anatomy and histology
Morphological study of root surfaces in teeth with adult periodontitis. Abelleira AC, et al. 1283
DENTAL DEVICES, HOME CARE
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
DENTAL ENAMEL PROTEINS
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
DENTAL EQUIPMENT
Aerosol and splatter production by focused spray and standard ultrasonic inserts. Rivera-Hidalgo F, et al. 473
DENTAL IMPLANT FAILURE
The relationship between the interleukin-1 periodontal genotype and implant loss. Initial data. Wilson, TG, Jr., et al. 724
DENTAL IMPLANTS
Bacterial adhesion of *Actinobacillus actinomycetemcomitans* serotypes to titanium implants: SEM evaluation. A preliminary report. Ökte E, et al. 1376
Full-arch restoration of the jaw with fixed ceramometal prosthesis: late implant placement. Chaushu G, et al. 90
Long-term evaluation of 282 implants in maxillary and mandibular molar positions: a prospective study. Becker W, et al. 896
Maintenance of soft tissue closure following guided bone regeneration: technical considerations and report of 723 cases. Fugazzotto PA. 1085
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330
The relationship between the interleukin-1 periodontal genotype and implant loss. Initial data. Wilson TG, Jr., et al. 724
Single tooth replacement of missing molars: a retrospective study of 78 implants. Schwartz-Arad D, et al. 449
Use of alendronate in peri-implant defect regeneration. Meraw SJ, et al. 151
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853
DENTAL IMPLANTS/adverse effects
A radiographic evaluation of bone healing around submerged and non-submerged dental implants in beagle dogs. Fiorellini JP, et al. 248
DENTAL IMPLANTS/anatomy and histology
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
DENTAL IMPLANTS/classification
Spontaneous early exposure of submerged implants: I. Classification and clinical observations. Tal H. 213
DENTAL IMPLANTS/microbiology
Comparative microbiological characteristics of failing implants and periodontally diseased teeth. Listgarten MA, et al. 431
Longitudinal study of dental implants in a periodontally compromised population. Sbordone L, et al. 1322
Microbiota of successful osseointegrated dental implants. Lee KH, et al. 131
Microorganisms and dental implants (editorial). Listgarten MA. 220
DENTAL IMPLANTS, ENDOSSEOUS
A classification system for sinus membrane perforations during augmentation procedures with options for repair. Vlassis JM, et al. 692
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
Periodontal and computer tomography scanning evaluation of endosseous implants in conjunction with sinus lift procedures. A 6-case series. Murakami K, et al. 1254
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
DENTAL IMPLANTS, IMMEDIATE
Rotated split palatal flap for soft tissue primary coverage over extraction sites with immediate implant placement. Description of the surgical procedure and clinical results. Nemcovsky CE, et al. 926
DENTAL INSTRUMENTS
Merits of soft nitriding scalers. Fujimura T, et al. 1339
DENTAL MODELS
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Multi-layered periodontal pocket epithelium reconstituted in vitro: histology and cytokeratin profiles. Papaioannou W, et al. 668
DENTAL PLAQUE/microbiology
Periodontal bacteria in adult twins. Michalowicz BS, et al. 263
DENTAL PLAQUE/prevention and control
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840

Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
Improvement of multiple facial gingival recession by non-surgical and supportive periodontal therapy. A case report. Ando K, et al. 909
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
DENTAL PULP DISEASES/therapy
Successful treatment of pulpal-periodontal combined lesion in a birooted maxillary lateral incisor with concomitant palato-radicular groove. A case report. Wei P-C, et al. 1540
DENTIFRICES/tartar control
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803
DENTIN
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
DENTISTS/manpower
Selecting a practice location: factors that periodontists may consider. Waldman HB. 95
DENTURE, COMPLETE, FIXED
Full-arch restoration of the jaw with fixed ceramo-metal prosthesis: late implant placement. Chaushu G, et al. 90
DENTURE, IMMEDIATE
Full-arch restoration of the jaw with fixed ceramo-metal prosthesis: late implant placement. Chaushu G, et al. 90
DENTURE, PARTIAL, FIXED, RESIN-BONDED
A long-term evaluation of composite-bonded natural/resin teeth as replacement of lower incisors and terminal periodontitis. Quirynen M, et al. 205
DENTURE, PARTIAL, REMOVABLE
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098
DETERGENTS/adverse effects
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803
DIABETES MELLITUS
Diabetes and periodontal diseases. Position paper. 935
DIABETES MELLITUS/complications
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
DIABETES MELLITUS, INSULIN-DEPENDENT
Periodontal ligament cells from insulin dependent diabetics exhibit altered alkaline phosphatase activity in response to growth factors. Hobbs, HC, et al. 736
Type 1 diabetes mellitus and oral health assessment of periodontal disease. Moore PA, et al. 409
DIAGNOSIS, DIFFERENTIAL
Gingival hemorrhage, myelodysplastic syndromes, and acute myeloid leukemia. A case report. Chapple ILC, et al. 1247
Relationship between a self-reported health questionnaire and laboratory tests at initial office visits. Thompson KS, et al. 1153
DIHYDROTESTOSTERONE
Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilakaratne A, et al. 1017
DILTIAZEM/adverse effects
Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63
DINOPROSTONE/adverse effects
Combined effects of caffeine and prostaglandin $E_2$ on the proliferation of osteoblast-like cells (UMR106-01). Kamagata-Kiyoura Y, et al. 283
DISEASE PROGRESSION
Progression and treatment of chronic adult periodontitis. Preshaw PM, et al. 1209
DISEASE TRANSMISSION
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406
DISINFECTION/methods
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
DOUBLE-BLIND METHOD
Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and nonsmokers with refractory periodontitis: a 5-year study. Söder B, et al. 761
DOXYCYCLINE/therapeutic use
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
DRUG DELIVERY SYSTEMS
Disposition of alendronate following delivery in a rat jaw. Yaffe A, et al. 893
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
DRUG RESISTANCE, MICROBIAL
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

## E

EDTA/therapeutic use
Effect of a carbon dioxide laser on periodontally involved root surfaces. Misra V, et al. 1046

# Index

*EIKENELLA CORRODENS*
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449
ENCEPHALOPATHY, BOVINE SPONGIFORM
Risk assessment of bovine spongiform encephalopathy transmission through bone graft material derived from bovine bone used for dental applications. Sogal A, et al. 1053
ENZYMES/adverse effects
Role of oral bacteria in respiratory infection. Scannapieco FA. 793
EPIDERMOLYSIS BULLOSA DYSTROPHICA
Periodontal plastic surgery in a dystrophic epidermolysis bullosa patient: review and case report. Brain J, et al. 1392
EPITHELIAL ATTACHMENT/anatomy and histology
Age-dependent changes in the distribution of BrdU- and TUNEL-positive cells in the murine gingival tissue. Sakai T, et al. 973
Human histologic evaluation of root coverage obtained with a connective tissue with partial thickness double pedicle graft. A case report. Harris, RJ. 813
EPITHELIAL ATTACHMENT/physiology
In vitro stimulation of human gingival epithelial cell attachment to dentin by surface conditioning. Vanheusden AJ, et al. 594
EPITHELIUM
Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618
EPITHELIUM/anatomy and histology
Multi-layered periodontal pocket epithelium reconstituted in vitro: histology and cytokeratin profiles. Papaioannou W, et al. 668
EPITHELIUM/microbiology
Multi-layered periodontal pocket epithelium reconstituted in vitro: histology and cytokeratin profiles. Papaioannou W, et al. 668
EPSTEIN-BARR VIRUS
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
ERRATA
Albandar JM, et al. (1999;70:13). 351
Bueno LC, et al. (1998;69:998). 822
Nakou M, et al. (1998;69:664). 238
Stoller NH, et al. (1998;69:1085). 238
ERYTHROMYCIN/therapeutic use
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
ESTHETICS, DENTAL
Increasing the amount of attached gingiva using a modified apically repositioned flap. Carnio J, et al. 1110
ESTRADIOL/adverse effects
Effects of sex hormones on production of interleukin-1 by human peripheral monocytes. Morishita M, et al. 757
ESTRADIOL/pharmacodynamics
Influence of estrogen and osteopenia/osteoporosis on clinical periodontitis in postmenopausal women. Reinhardt RA, et al. 823
ESTRADIOL/therapeutic use
Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilalaratne A, et al. 1017
EXOSTOSES
Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329
EXTRACELLULAR MATRIX
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
Increase of urokinase-type plasminogen activator receptor expression in human gingival fibroblasts by *Porphyromonas gingivalis* lipopolysaccharide. Ogura N, et al. 402
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485

F

FAMILY CHARACTERISTICS
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406
FATTY ACIDS
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435
FIBRINOLYSIS
Destructive membranous periodontal disease (ligneous periodontitis). Günhan O, et al. 919
FIBROBLASTS
Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604
Chlorhexidine-induced changes to human gingival fibroblast collagen and non-collagen protein production. Mariotti AJ, et al. 1443
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144

# Index

Increase of urokinase-type plasminogen activator receptor expression in human gingival fibroblasts by *Porphyromonas gingivalis* lipopolysaccharide. Ogura N, et al. 402

Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274

Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilalaratne A, et al. 1017

Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464

Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951

Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

Spontaneous repositioning of pathologically migrated teeth. Gaumet PE, et al. 1177

FIBROMATOSIS GINGIVAL

Gingival fibromatosis combined with cherubism and psychomotor retardation: a rare syndrome. Yalcin S, et al. 201

Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464

FLAVORING AGENTS/adverse effects

Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803

FLUORESCENT DYES

Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618

FLUTAMIDE

Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604

FOLLOW-UP STUDIES

The accuracy of radiographic methods in assessing the outcome of periodontal regenerative therapy. Toback GA, et al. 1479

Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221

Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long-term results. Ilgenli T, et al. 967

An 18-year longitudinal study of untreated mucogingival defects. Freedman AL, et al. 1174

Full-arch restoration of the jaw with fixed ceramo-metal prosthesis: late implant placement. Chaushu G, et al. 90

Influence of estrogen and osteopenia/osteoporosis on clinical periodontitis in postmenopausal women. Reinhardt RA, et al. 823

A long-term evaluation of composite-bonded natural/resin teeth as replacement of lower incisors and terminal periodontitis. Quirynen M, et al. 205

Long-term evaluation of 282 implants in maxillary and mandibular molar positions: a prospective study. Becker W, et al. 896

Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and non-smokers with refractory periodontitis: a 5-year study. Söder B, et al. 761

Longitudinal study of dental implants in a periodontally compromised population. Sbordone L, et al. 1322

One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632

One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646

Progression and treatment of chronic adult periodontitis. Preshaw PM, et al. 1209

Radiological findings of the post-sinus lift maxillary sinus: a computerized tomography follow-up. Peleg M, et al. 1564

Retained free gingival graft rugae: a 9-year case report. Breault LG, et al. 438

Single tooth replacement of missing molars: a retrospective study of 78 implants. Schwartz-Arad, D, et al. 449

Successful treatment of pulpal-periodontal combined lesion in a birooted maxillary lateral incisor with concomitant palato-radicular groove. A case report. Wei P-C, et al. 1540

Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098

Type 1 diabetes mellitus and oral health assessment of periodontal disease. Moore PA, et al. 409

FORECASTING

The informativeness of attachment loss on tooth mortality. Hujoel PP, et al. 44

Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49

FOREIGN BODIES

Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542

N-FORMYLMETHIONINE LEUCYL-PHENYLALANINE

Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194

FURCATION/epidemiology

Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351

FURCATION/surgery

Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8

# Index

The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878

FURCATION/therapy

A bioactive glass particulate in the treatment of molar furcation invasions. Anderegg CR, et al. 384

The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878

Evidence for healing of class II and III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490

Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554

Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098

*FUSOBACTERIUM NUCLEATUM*

Arbitrarily primed-polymerase chain reaction for identification and epidemiologic subtyping of oral isolates of *Fusobacterium nucleatum*. Avila-Campos MJ, et al. 1202

Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861

G

GELATIN SPONGE, ABSORBABLE

A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369

GENE POLYMORPHISM

Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032

GENE REARRANGEMENT

Molecular diagnosis of hypophosphatasia with severe periodontitis. Watanabe H, et al. 688

GENES, RECEPTOR

Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032

GENETIC VECTORS

Periodontal bacteria in adult twins. Michalowicz BS, et al. 263

GENOTYPE

The relationship between the interleukin-1 periodontal genotype and implant loss. Initial data. Wilson TG, Jr., et al. 724

GENOTYPE, IL-1

Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49

GENOTYPING

Persistence of oral colonization by the same *Actinobacillus actinomycetemcomitans* strains(s). Saarela MH, et al. 504

GIANT CELLS

Adverse effects associated with a bioabsorbable guided tissue regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542

GINGIVA/anatomy and histology

Age-dependent changes in the distribution of BrdU- and TUNEL- positive cells in the murine gingival tissue. Sakai T, et al. 973

Density of CD 1a-labeled Langerhans cells in normal human gingiva and in nifedipine- and immunosuppressive medication-induced gingival overgrowth. Nurmenniemi PK, et al. 752

An 18-year longitudinal study of untreated mucogingival defects. Freedman AL, et al. 1174

GINGIVA/enzymology

*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303

GINGIVA/microbiology

Longitudinal study of dental implants in a periodontally compromised population. Sbordone L, et al. 1322

GINGIVA/physiopathology

Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848

GINGIVA/surgery

Increasing the amount of attached gingiva using a modified apically repositioned flap. Carnio J, et al. 1110

GINGIVAL CREVICULAR FLUID

Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221

The influence of interleukin gene polymorphism on expression of interleukin-1β and tumor necrosis factor-α in periodontal tissue and gingival crevicular fluid. Engebretson SP, et al. 567

GINGIVAL CREVICULAR FLUID/analysis

Assessment of a novel screening test for neutrophil collagenase activity in the diagnosis of periodontal diseases. Mancini S, et al. 1292

Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276

Increased interleukin-1 concentration in gingival crevicular fluid as a characteristic of periodontitis. Figueredo CMS, et al. 1457

Relationship of the subgingival microbiota to chairside test for aspartate aminotransferase in gingival crevicular fluid. Wong M-Y, et al. 57

GINGIVAL DISEASES

Gastric and gingival localization of mucosa-associated lymphoid tissue (MALT) lymphoma. An immunohistochemical, virological and clinical case report. Margiotta V, et al. 914

Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313

GINGIVAL HEMORRHAGE

Gingival hemorrhage, myelodysplastic syndromes, and acute myeloid leukemia. A case report. Chapple ILC, et al. 1247

# Index

Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848
GINGIVAL HYPERPLASIA
Destructive membranous periodontal disease (ligneous periodontitis). Günhan O, et al. 919
GINGIVAL HYPERPLASIA/complications
Expression of p53 protein and Ki67 antigen in gingival hypoplasia induced by nifedipine and phenytoin. Saito K, et al. 581
GINGIVAL HYPERPLASIA/epidemiology
Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63
GINGIVAL HYPERPLASIA/etiology
Clinical effects of periodontal therapy on the severity of cyclosporin A-induced gingival hyperplasia. Kantarci A, et al. 587
Cyclosporin A regulates interleukin-1β and interleukin-6 expression in gingiva: implications for gingival overgrowth. Myrillas TT, et al. 294
Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long term results. Ilgenli T, et al. 967
Effects of cyclosporin A on alveolar bone: an experimental study in the rat. Fu E, et al. 189
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
GINGIVAL HYPERPLASIA/pathogenesis
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
GINGIVAL HYPERPLASIA/physiopathology
Density of CD 1a-labeled Langerhans cells in normal human gingiva and in nifedipine- and immunosuppressive medication-induced gingival overgrowth. Nurmenniemi PK, et al. 752
GINGIVAL HYPERPLASIA/prevention and control
Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long term results. Ilgenli T, et al. 967
GINGIVAL HYPERPLASIA/surgery
Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long term results. Ilgenli T, et al. 967
GINGIVAL HYPERPLASIA/therapy
Clinical effects of periodontal therapy on the severity of cyclosporin A-induced gingival hyperplasia. Kantarci A, et al. 587
GINGIVAL INDEX
An 18-year longitudinal study of untreated mucogingival defects. Freedman AL, et al. 1174
GINGIVAL NEOPLASMS/surgery
Leiomyosarcoma presenting as a mandibular gingival swelling: a case report. Goldschmidt PR, et al. 84
GINGIVAL RECESSION
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
GINGIVAL RECESSION/epidemiology
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
GINGIVAL RECESSION/surgery
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123
Coronally advanced flap procedure for root coverage. Is flap thickness a relevant predictor to achieve root coverage? A 19-case series. Baldi C, et al. 1077
Coronally advanced flap procedure for root coverage. Treatment of root surface: root planing versus polishing. Pini-Prato G, et al. 1064
Human histologic evaluation of root coverage obtained with a connective tissue with partial thickness double pedicle graft. A case report. Harris, RJ. 813
Increasing the amount of attached gingiva using a modified apically repositioned flap. Carnio J, et al. 1110
Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
GINGIVAL RECESSION/therapy
Improvement of multiple facial gingival recession by non-surgical and supportive periodontal therapy. A case report. Ando K, et al. 909
GINGIVITIS
Increased interleukin-1 concentration in gingival crevicular fluid as a characteristic of periodontitis. Figueredo CMS, et al. 1457
GINGIVITIS/drug therapy
Povidone-iodine's effects and role in the management of periodontal diseases: a review. Greenstein G. 1397
GINGIVITIS/epidemiology
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
GINGIVITIS/immunology
Immunohistologic and morphometric analysis of cytotoxic T lymphocytes in gingivitis. Séguier S, et al. 1383
GINGIVITIS/microbiology
Microbiota of successful osseointegrated dental implants. Lee KH, et al. 131
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
GINGIVITIS/pathogenesis
Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485
GINGIVITIS/prevention and control
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
GINGIVITIS, DESQUAMATIVE
Gingival lesions diagnosed as pemphigus vulgaris in an adolescent. Case report. Navarro CM, et al. 808

# Index

GLASS, BIOLOGICALLY ACTIVE
A bioactive glass particulate in the treatment of molar furcation invasions. Anderegg CR, et al. 384
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
GLUCURONIDASE
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
GRAFTS, AUTOGENOUS PALATAL
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369
GRAFTS, BONE
A classification system for sinus membrane perforations during augmentation procedures with options for repair. Vlassis JM, et al. 692
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
Long-term results of a minimally invasive surgical approach for bone grafting. Harrel SK, et al. 1558
Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329
Periodontal and computer tomography scanning evaluation of endosseous implants in conjunction with sinus lift procedures. A 6-case series. Murakami K, et al. 1254
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554
Radiological findings of the post-sinus lift maxillary sinus: a CT follow-up. Peleg M, et al. 1584
Risk assessment of bovine spongiform encephalopathy transmission through bone graft material derived from bovine bone used for dental applications. Sogal A, et al. 1053
GRAFTS, CONNECTIVE TISSUE
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123
Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
GRAFTS, GINGIVAL
Human histologic evaluation of root coverage obtained with a connective tissue with partial thickness double pedicle graft. A case report. Harris, RJ. 813
Retained free gingival graft rugae: a 9-year case report. Breault LG, et al. 438
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
GRAFTS, SOFT TISSUE
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369
GROWTH FACTORS
Bone regeneration by recombinant human bone morphogenetic protein-2 in rat mandibular defects. An experimental model of defect filling. Higuchi T, et al. 1026
Growth factors regulated expression of osteoblast-associated genes. Strayhorn CL, et al. 1345
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Periodontal ligament cells from insulin dependent diabetics exhibit altered alkaline phosphatase activity in response to growth factors. Hobbs, HC, et al. 736
GROWTH FACTORS, ENDOTHELIAL
Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848
GROWTH FACTORS, INSULIN-LIKE
Modification of an osteoconductive anorganic bovine bone mineral matrix with growth factors. Jiang D, et al. 834
GROWTH FACTORS, PLATELET-DERIVED
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
Modification of an osteoconductive anorganic bovine bone mineral matrix with growth factors. Jiang D, et al. 834
GUIDED BONE REGENERATION
Maintenance of soft tissue closure following guided bone regeneration: technical considerations and report of 723 cases. Fugazzotto PA. 1085
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
GUIDED TISSUE REGENERATION
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123

Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Evidence for healing of class II and III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554
Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853

H

HALITOSIS/pathogenesis
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485
HEAT/adverse effects
Effective laser ablation of bone based on the absorption characteristics of water and proteins. Spencer P, et al. 68
HEMOSTATIC AGENTS
A comparative evaluation of hemostatic agents in the management of soft tissue graft donor site bleeding. Rossman JA, et al. 1369
HERPES SIMPLEX VIRUS
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
HOST FACTORS
Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032
HOST-PARASITE REACTION
The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289
Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis*. Saito S, et al. 610
HYALURONIC ACID/therapeutic use
Bacteriostatic effects of hyaluronic acid. Pirnazar P, et al. 370
HYDROGEN SULFIDE/toxicity
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485
HYDROXYAPATITE
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
Use of alendronate in peri-implant defect regeneration. Meraw SJ, et al. 151
HYDROXYAPATITE/therapeutic use
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853
HYPERLIPIDEMIA
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
HYPERLIPIDEMIA/complications
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
HYPERSENSITIVITY, CHEMICAL
Gingival lesions diagnosed as pemphigus vulgaris in an adolescent. Case report. Navarro CM, et al. 808
HYPERSENSITIVITY, CONTACT
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803
Gingival lesions diagnosed as pemphigus vulgaris in an adolescent. Case report. Navarro CM, et al. 808
HYPOPHOSPHATASIA
Molecular diagnosis of hypophosphatasia with severe periodontitis. Watanabe H, et al. 688

I

IgA
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
IgG
Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
IMMUNE RESPONSE
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485
Stress and immunity: implications for viral disease and wound healing. Rozlog LA, et al. 786
IMMUNITY, HUMORAL
Humoral immunity to stress proteins and periodontal disease. Lopatin DE, et al. 1185
IMMUNOSUPPRESSIVE AGENTS
Density of CD 1a-labeled Langerhans cells in normal human gingiva and in nifedipine- and immuno-

# Index

suppressive medication-induced gingival overgrowth. Nurmenniemi PK, et al. 752

INCISOR/anatomy and histology
Successful treatment of pulpal-periodontal combined lesion in a birooted maxillary lateral incisor with concomitant palato-radicular groove. A case report. Wei P-C, et al. 1540

INDOMETHACIN/adverse effects
Combined effects of caffeine and prostaglandin E on the proliferation of osteoblast-like cells (UMR106-01). Kamagata-Kiyoura Y, et al. 283

INFECTION/prevention and control
Spontaneous early exposure of submerged implants: I. Classification and clinical observations. Tal H. 213

INFLAMMATION
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
Immunohistologic anbd morphometric analysis of cytotoxic T lymphocytes in gingivitis. Séguier S, et al. 1383
*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303
Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

INTEGRINS
Monoclonal antibodies against integrin subunits α6 and β1 inhibit migration of gingival epithelium in organ culture. Gräber H-G, et al. 388
Role of interactions between integrins and extracellular matrix components in healthy epithelial tissue and establishment of a long junctional epithelium during wound healing: a review. Gräber H-G, et al. 1511

INTERLEUKIN-1
Cyclosporin A regulates interleukin-1 and interleukin-6 expression in gingiva: implications for gingival overgrowth. Myrillas TT, et al. 294
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
Effects of sex hormones on production of interleukin-1 by human peripheral monocytes. Morishita M, et al. 757
The influence of interleukin gene polymorphism on expression of interleukin-1β and tumor necrosis factor-α in periodontal tissue and gingival crevicular fluid. Engebretson SP, et al. 567
Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274
Involvement of cyclooxygenase-2 in interleukin-1 - induced prostaglandin production by human periodontal ligament cells. Noguchi K, et al. 902
Linkage disequilibrium of interleukin-1 genetic polymorphisms with early-onset periodontitis. Diehl SR, et al. 418
The relationship between the interleukin-1 periodontal genotype and implant loss. Initial data. Wilson TG, Jr., et al. 724

INTERLEUKIN-6
Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604
Cyclosporin A regulates interleukin-1β and interleukin-6 expression in gingiva: implications for gingival overgrowth. Myrillas TT, et al. 294
Increased interleukin-1 concentration in gingival crevicular fluid as a characteristic of periodontitis. Figueredo CMS, et al. 1457
Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
Vascular endothelial growth factors and progression of periodontal disorders. Johnson RB, et al. 848

INTERVIEWS, ORAL
Relationship between a self-reported health questionnaire and laboratory tests at initial office visits. Thompson KS, et al. 1153

J

JAW, EDENTULOUS, PARTIAL
Microbiota of successful osseointegrated dental implants. Lee KH, et al. 131

JAW NEOPLASMS
Gingival metastasis from a prostate adenocarcinoma: report of a case. Piattelli A, et al. 441

*JOURNAL OF PERIODONTOLOGY*
Instructions to authors. 116
*Journal of Periodontology*: reliability and utility (editorial). Genco RJ. 100

K

KERATIN/diagnostic use
Multi-layered periodontal pocket epithelium reconstituted in vitro: histology and cytokeratin profiles. Papaioannou W, et al. 668

L

LANGERHANS CELLS
Density of CD 1a-labeled Langerhans cells in normal human gingiva and in nifedipine- and immunosuppressive medication-induced gingival overgrowth. Nurmenniemi PK, et al. 752

LASER SURGERY
Laser irradiation of bone: II. Healing response following treatment by $CO_2$ and Nd:YAD lasers. Friesen LR, et al. 75

LASERS
Laser irradiation of bone: II. Healing response following treatment by $CO_2$ and Nd:YAD lasers. Friesen LR, et al. 75

LASERS/adverse effects
Effective laser ablation of bone based on the absorption characteristics of water and proteins. Spencer P, et al. 68
LASERS/therapeutic use
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
Effect of a carbon dioxide laser on periodontally involved root surfaces. Misra V, et al. 1046
LEIOMYOSARCOMA/surgery
Leiomyosarcoma presenting as a mandibular gingival swelling: a case report. Goldschmidt PR, et al. 84
LETTERS TO THE EDITOR 562
LEUKEMIA, MYELOID
Gingival hemorrhage, myelodysplastic syndromes, and acute myeloid leukemia. A case report. Chapple ILC, et al. 1247
LEUKOCYTES
Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772
LEUKOTOXIN PROMOTOR STRUCTURE
A novel insertion sequence increases the expression of leukotoxicity in *Actinobacillus actinomycetemcomitans* clinical isolates. He T, et al. 1261
LIPIDS
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
LIPOPOLYSACCHARIDES
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
Increase of urokinase-type plasminogen activator receptor expression in human gingival fibroblasts by *Porphyromonas gingivalis* lipopolysaccharide. Ogura N, et al. 402
Interleukin (IL)-1 and *Porphyromonas gingivalis* lipopolysaccharide stimulation of IL-6 production by fibroblasts derived from healthy or periodontally diseased human gingival tissue. Kent LW, et al. 274
Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772
LOGICAL REGRESSION ANALYSIS
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
LONGEVITY OF RESTORATION
A long-term evaluation of composite-bonded natural/resin teeth as replacement of lower incisors and terminal periodontitis. Quirynen M, et al. 205
LUPUS ERYTHEMATOSUS
Periodontitis and anti-neutrophil cytoplasmic antibodies in systemic lupus erythematosus and rheumatoid arthritis: a comparative study. Novo E, et al. 185
T LYMPHOCYTES, CYTOTOXIC
Immunohistologic and morphometric analysis of cytotoxic T lymphocytes in gingivitis. Séguier S, et al. 1383
LYMPHOID TISSUE
Gastric and gingival localization of mucosa-associated lymphoid tissue (MALT) lymphoma. An immunohistochemical, virological and clinical case report. Margiotta V, et al. 914
LYMPHOMA, MUCOSA-ASSOCIATED
Gastric and gingival localization of mucosa-associated lymphoid tissue (MALT) lymphoma. An immunohistochemical, virological and clinical case report. Margiotta V, et al. 914
LYMPHOMA, NON-HODGKIN'S
Gastric and gingival localization of mucosa-associated lymphoid tissue (MALT) lymphoma. An immunohistochemical, virological and clinical case report. Margiotta V, et al. 914
LYODURA
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853

**M**

MANDIBULAR NEOPLASMS/surgery
Leiomyosarcoma presenting as a mandibular gingival swelling: a case report. Goldschmidt PR, et al. 84
MATRIX METALLOPROTEINASES
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
MAXILLA, ATROPHIC
Radiological findings of the post-sinus lift maxillary sinus: a computerized tomography follow-up. Peleg M, et al. 1564
MAXILLARY SINUS/injuries
A classification system for sinus membrane perforations during augmentation procedures with options for repair. Vlassis JM, et al. 692
MAXILLARY SINUS/surgery
Periodontal and computer tomography scanning evaluation of endosseous implants in conjunction with sinus lift procedures. A 6-case series. Murakami K, et al. 1254
Radiological findings of the post-sinus lift maxillary sinus: a computerized tomography follow-up. Peleg M, et al. 1564
MAXILLARY SINUSITIS/etiology
Radiological findings of the post-sinus lift maxillary sinus: a computerized tomography follow-up. Peleg M, et al. 1564
MEDICAL HISTORY TAKING
Relationship between a self-reported health questionnaire and laboratory tests at initial office visits. Thompson KS, et al. 1153
MEMBRANES, ARTIFICAL
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878

# Index

The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Evidence for healing of Class II and Class III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000

MEMBRANES, BARRIER
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Evidence for healing of Class II and Class III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853

MEMBRANES, BIOABSORBABLE
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510

MENOPAUSE
Influence of estrogen and osteopenia/osteoporosis on clinical periodontitis in postmenopausal women. Reinhardt RA, et al. 823
Relationships between longitudinal changes in radiographic alveolar bone height and probing depth measurements data from postmenopausal women. Pilgram TK, et al. 829

MESENCHYMOMA/surgery
Leiomyosarcoma presenting as a mandibular gingival swelling: a case report. Goldschmidt PR, et al. 84

METHYL MERCAPTAN/toxicity
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485

METRONIDAZOLE/therapeutic use
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and nonsmokers with refractory periodontitis: a 5-year study. Söder B, et al. 761
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239

MEXICAN AMERICANS
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351
MINOCYCLINE/therapeutic use
A 15-month evaluation of the effects of repeated subgingival minocycline in chronic adult periodontitis. van Steenberghe D, et al. 657
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
Implications of minocycline, platelet-derived growth factor, and transforming growth factor-beta on inflammatory repair potential in the periodontium. Soory M, et al. 1136
In vitro stimulation of human gingival epithelial cell attachment to dentin by surface conditioning. Vanheusden AJ, et al. 594
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
MODELS, ANIMAL
The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289
MODELS, BIOLOGICAL
Periodontitis in the house musk shrew (*Suncus murinus*): a potential animal model for human periodontal disease. Takata T, et al. 195
Risk assessment of bovine spongiform encephalopathy transmission through bone graft material derived from bovine bone used for dental applications. Sogal A, et al. 1053
MODELS, STATISTICAL
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406
MOLAR
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098
MONOCYTES
Effects of sex hormones on production of interleukin-1 by human peripheral monocytes. Morishita M, et al. 757
MOUTH MUCOSA
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
Retained free gingival graft rugae: a 9-year case report. Breault LG, et al. 438
MOUTH REHABILITATION
Single tooth replacement of missing molars: a retrospective study of 78 implants. Schwartz-Arad D, et al. 449
MOUTHWASHES/therapeutic use
Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
MULTI-CENTER STUDIES
Supportive periodontal therapy in South America. A retrospective multi-practice study on compliance. Novaes AB, Jr., et al. 301
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
MYELODYSPLASTIC SYNDROMES
Gingival hemorrhage, myelodysplastic syndromes, and acute myeloid leukemia. A case report. Chapple ILC, et al. 1247
MYOEPITHELIOMA
Myoepithelioma of the gingiva. Report of a case. Piattelli A, et al. 683

N

NAPROXEN/therapeutic use
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
NATIONAL HEALTH AND NUTRITION EXAMINATION SURVEY III
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
NEOPLASM METASTASIS
Gingival metastasis froma prostate adenocarcinoma: report of a case. Piattelli A, et al. 441
NEUTROPHILS
Assessment of a novel screening test for neutrophil collagenase activity in the diagnosis of periodontal diseases. Mancini S, et al. 1292
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
Effect of periodontitis and smoking on blood leukocytes and acute-phase proteins. Fredriksson MI, et al. 1355
Increased interleukin-1 concentration in gingival crevicular fluid as a characteristic of periodontitis. Figueredo CMS, et al. 1457
Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis*. Saito S, et al. 610
Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179
Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194
NICOTINE/adverse effects
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
NIFEDIPINE/adverse effects
Density of CD 1a-labeled Langerhans cells in normal human gingiva and in nifedipine- and immunosuppressive medication-induced gingival overgrowth. Nurmenniemi PK, et al. 752
Effectiveness of periodontal therapy in patients with drug-induced gingival overgrowth. Long-term results. Ilgenli T, et al. 967
Expression of p53 protein and Ki67 antigen in gingival hypoplasia induced by nifedipine and phenytoin. Saito K, et al. 581

# Index

Prevalence of gingival overgrowth induced by calcium channel blockers: a community-based study. Ellis JS, et al. 63
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
NODULES, MINERALIZED
N-Cadherin expression during periodontal ligament cell differentiation in vitro. Lin W-L, et al. 1039
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992

Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
PERI-IMPLANTITIS/drug therapy
Qualitative analysis of peripheral peri-implant bone and influence of alendronate sodium on early bone regeneration. Meraw SJ, et al. 1228
PERIODONTAL ATTACHMENT
Culture of gingival fibroblasts on bioabsorbable regenerative materials in vitro. Simain-Sato F, et al. 1234
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
The informativeness of attachment loss on tooth mortality. Hujoel PP, et al. 44
Monoclonal antibodies against integrin subunits α6 and β1 inhibit migration of gingival epithelium in organ culture. Gräber H-G, et al. 388
Periodontal disease in patients with cleft palate and patients with unilateral and bilateral clefts of lip, palate, and alveolus. Gaggl A, et al. 171
Role of interactions between integrins and extracellular matrix components in healthy epithelial tissue and establishment of a long junctional epithelium during wound healing: a review. Gräber H-G, et al. 1511
Site-specific attachment level change detected by physical probing in untreated chronic adult periodontitis: review of studies 1982-1997. Breen HJ, et al. 312
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
PERIODONTAL ATTACHMENT/physiology
In vitro stimulation of human gingival epithelial cell attachment to dentin by surface conditioning. Vanheusden AJ, et al. 594
PERIODONTAL ATTACHMENT LOSS
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
PERIODONTAL ATTACHMENT LOSS/diagnosis
Option-4 algorithm for third generation disc probe: agreement of selected site-specific relative attachment level measurements and detection of longitudinal site-specific attachment level change. Breen HJ, et al. 159
PERIODONTAL ATTACHMENT LOSS/epidemiology
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351
Relationships between longitudinal changes in radiographic alveolar bone height and probing depth measurements data from postmenopausal women. Pilgram TK, et al. 829
PERIODONTAL DISEASES
Diabetes and periodontal diseases. Position paper. 935
Relationship of stress, distress, and inadequate coping behaviors to periodontal disease. Genco RJ, et al. 711
PERIODONTAL DISEASES/diagnosis
*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303
Periodontal disease in patients with cleft palate and patients with unilateral and bilateral clefts of lip, palate, and alveolus. Gaggl A, et al. 171
Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49
Relationships between longitudinal changes in radiographic alveolar bone height and probing depth measurements data from postmenopausal women. Pilgram TK, et al. 829
PERIODONTAL DISEASES/drug therapy
Comparison of enamel matrix proteins and bioabsorbable membranes in the treatment of intrabony periodontal defects. A split-mouth study. Sculean A, et al. 255
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilakaratne A, et al. 1017
Periodontal tissue disposition of azithromycin in patients affected by chronic inflammatory periodontal diseases. Blandizzi C, et al. 960
Povidone-iodine's effects and role in the management of periodontal diseases: a review. Greenstein G. 1397
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
PERIODONTAL DISEASES/epidemiology
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13: erratum 351
Gingival recession, gingival bleeding, and dental calculus in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 30
The influence of general health and socio-cultural variables on the periodontal condition of pregnant women. Machuca G, et al. 779
PERIODONTAL DISEASES/etiology
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982

Supportive periodontal therapy in South America. A retrospective multi-practice study on compliance. Novaes AB, Jr., et al. 301
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098
Use of bovine-derived anorganic bone associated with guided tissue regeneration in intrabony defects. Six-month evaluation at re-entry. Batista EL, Jr., et al. 1000
The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510
Use of lyodura for bone augmentation of osseous defects around dental implants. Peleg M, et al. 853

PERIODONTAL DISEASES, EARLY-ONSET
Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032

PERIODONTAL INDEX
Periodontal and computer tomography scanning evaluation of endosseous implants in conjunction with sinus lift procedures. A 6-case series. Murakami K, et al. 1254

PERIODONTAL LIGAMENT
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
N-Cadherin expression during periodontal ligament cell differentiation in vitro. Lin W-L, et al. 1039
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
Involvement of cyclooxygenase-2 in interleukin-1 - induced prostaglandin production by human periodontal ligament cells. Noguchi K, et al. 902
Periodontal ligament cells from insulin dependent diabetics exhibit altered alkaline phosphatase activity in response to growth factors. Hobbs HC, et al. 736

PERIODONTAL LIGAMENT/anatomy and histology
Should cementoblasts express alkaline phosphatase activity? Preliminary study of rat cementoblasts in vitro. Gao J, et al. 951

PERIODONTAL POCKETS/epidemiology
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351

PERIODONTAL POCKETS/microbiology
Multi-layered periodontal pocket epithelium reconstituted in vitro: histology and cytokeratin profiles. Papaioannou W, et al. 668
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

PERIODONTAL POCKETS/therapy
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1

PERIODONTAL PROBES
Relationships between longitudinal changes in radiographic alveolar bone height and probing depth measurements data from postmenopausal women. Pilgram TK, et al. 829
Site-specific attachment level change detected by physical probing in untreated chronic adult periodontitis: review of studies 1982-1997. Breen HJ, et al. 312

PERIODONTAL REGENERATION
Bacteriostatic effects of hyaluronic acid. Pirnazar P, et al. 370
A bioactive glass particulate in the treatment of molar furcation invasions. Anderegg CR, et al. 384
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Growth factors regulated expression of osteoblast-associated genes. Strayhorn CL, et al. 1345
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
Monoclonal antibodies against integrin subunits α6 and β1 inhibit migration of gingival epithelium in organ culture. Gräber H-G, et al. 388
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554
The use of combined periodontal regeneration techniques (Guest editorial). McClain PK, et al. 102

PERIODONTITIS
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activ-

ity in periodontal ligament cells. Shibata Y, et al. 1158
Association between periodontitis and hyperlipidemia: cause or effect. Cutler CW, et al. 1429
Increased interleukin-1 concentration in gingival crevicular fluid as a characteristic of periodontitis. Figueredo CMS, et al. 1457
Molecular diagnosis of hypophosphatasia with severe periodontitis. Watanabe H, et al. 688
PERIODONTITIS/complications
Effect of periodontitis and smoking on blood leukocytes and acute-phase proteins. Fredriksson MI, et al. 1355
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
Morphological study of root surfaces in teeth with adult periodontitis. Abelleira AC, et al. 1283
PERIODONTITIS/diagnosis
Assessment of a novel screening test for neutrophil collagenase activity in the diagnosis of periodontal diseases. Mancini S, et al. 1292
Site-specific attachment level change detected by physical probing in untreated chronic adult periodontitis: review of studies 1982-1997. Breen HJ, et al. 312
PERIODONTITIS/drug therapy
A 15-month evaluation of the effects of repeated subgingival minocycline in chronic adult periodontitis. van Steenberghe D, et al. 657
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
PERIODONTITIS/epidemiology
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406
Destructive periodontal disease in adults 30 years of age and older in the United States, 1988-1994. Albandar JM, et al. 13; erratum 351
PERIODONTITIS/etiology
Influence of estrogen and osteopenia/osteoporosis on clinical periodontitis in postmenopausal women. Reinhardt RA, et al. 823
PERIODONTITIS/microbiology
Assessment of familial patterns of microbial infection in periodontitis. Irfan UM, et al. 1406
Comparative microbiological characteristics of failing implants and periodontally diseased teeth. Listgarten MA, et al. 431
A 15-month evaluation of the effects of repeated subgingival minocycline in chronic adult periodontitis. van Steenberghe D, et al. 657
Longitudinal study of dental implants in a periodontally compromised population. Sbordone L, et al. 1322
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
PERIODONTITIS/pathogenesis
Combined effects of caffeine and prostaglandin E on the proliferation of osteoblast-like cells (UMR106-01). Kamagata-Kiyoura Y, et al. 283
Comparative microbiological characteristics of failing implants and periodontally diseased teeth. Listgarten MA, et al. 431
Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens*, and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269
Relationship between herpesviruses and adult periodontitis and periodontopathic bacteria. Contreras A, et al. 478
The relationship between oral malodor, gingivitis, and periodontitis. A review. Ratcliff PA, et al. 485
PERIODONTITIS/pathophysiology
The effect of smoking and periodontal treatment on salivary composition in patients with established periodontitis. Zuabi O, et al. 1240
PERIODONTITIS/physiology
Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis*. Saito S, et al. 610
PERIODONTITIS/surgery
Effective periodontal treatment in a patient with type IIA von Willebrand's disease: report of a case. Izumi Y, et al. 548
PERIODONTITIS/therapy
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
The influence of interleukin gene polymorphism on expression of interleukin-1β and tumor necrosis factor-α in periodontal tissue and gingival crevicular fluid. Engebretson SP, et al. 567
The informativeness of attachment loss on tooth mortality. Hujoel PP, et al. 44
Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and nonsmokers with refractory periodontitis: a 5-year study. Söder B, et al. 761
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
PERIODONTITIS, EARLY-ONSET
Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730
Smoking and patterns of bone loss in early-onset periodontitis. Mullally BH, et al. 394
PERIODONTITIS, EARLY-ONSET/etiology
Linkage disequilibrium of interleukin-1 genetic polymorphisms with early-onset periodontitis. Diehl SR, et al. 418
PERIODONTITIS, EARLY-ONSET/prevention and control
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset

periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
PERIODONTITIS, EXPERIMENTAL
Periodontitis in the house musk shrew (*Suncus murinus*): a potential animal model for human periodontal disease. Takata T, et al. 195
PERIODONTITIS, JUVENILE
Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194
PERIODONTITIS, JUVENILE/etiology
Linkage disequilibrium of interleukin-1 genetic polymorphisms with early-onset periodontitis. Diehl SR, et al. 418
PERIODONTITIS, LIGNEOUS
Destructive membranous periodontal disease (ligneous periodontitis). Günhan O, et al. 919
PERIODONTIUM
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
PERIODONTIUM/anatomy and physiology
Age-dependent changes in the distribution of BrdU- and TUNEL-positive cells in the murine gingival tissue. Sakai T, et al. 973
PHAGOCYTOSIS
Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis*. Saito S, et al. 610
PHENYTOIN/adverse effects
Expression of p53 protein and Ki67 antigen in gingival hypoplasia induced by nifedipine and phenytoin. Saito K, et al. 581
Pronounced palatal and mandibular tori observed in a patient with chronic phenytoin therapy: a case report. Sasaki H, et al. 445
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
PLACEBOS
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
PLANING
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
Coronally advanced flap procedure for root coverage. Treatment of root surface: root planing versus polishing. Pini-Prato G, et al. 1064
Improvement of multiple facial gingival recession by non-surgical and supportive periodontal therapy. A case report. Ando K, et al. 909
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
Progression and treatment of chronic adult periodontitis. Preshaw PM, et al. 1209
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
PLASMINOGEN ACTIVATORS
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
PLASMINOGEN INACTIVATORS
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
PLASMINOGEN INHIBITORS
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
POINT MUTATION
Molecular diagnosis of hypophosphatasia with severe periodontitis. Watanabe H, et al. 688
POLYAMINES
Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179
POLYLACTIC ACID/adverse effects
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
POLYLACTIC ACID/therapeutic use
Adverse effects associated with a bioabsorbable guided tissure regeneration device in the treatment of human gingival recession defects. A clinicopathologic case report. Tatakis DN, et al. 542
Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
The effect of postsurgical antibiotics and a bioabsorbable membrane on regenerative healing in Class II furcation defects. Vest TM, et al. 878
The effect of postsurgical naproxen and bioabsorbable membrane on osseous healing in bone defects. Bichara J, et al. 869
Polymer-assisted regenerative therapy: case reports of 22 consecutively treated periodontal defects with a novel combined surgical approach. Rosen PS, et al. 554

# Index

Root coverage employing an envelope technique or guided tissue regeneration with a bioresorbable membrane. Müller H-P, et al. 743

The use of 2 bioabsorbable barrier membranes in the treatment of interproximal intrabony periodontal defects. Mattson JS, et al. 510

POLYMERASE CHAIN REACTION

Effect of initial periodontal therapy on the frequency of detecting *Bacteroides forsythus, Porphyromonas gingivalis,* and *Actinobacillus actinomycetemcomitans.* Takamatsu N, et al. 574

Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

POLYMERASE CHAIN REACTION/methods

Arbitrarily primed-polymerase chain reaction for identification and epidemiologic subtyping of oral isolates of *Fusobacterium nucleatum.* Avila-Campos MJ, et al. 1202

POLYMORPHISM

Linkage disequilibrium of interleukin-1 genetic polymorphisms with early-onset periodontitis. Diehl SR, et al. 418

POLYMORPHISM, GENETIC

Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194

POLYMORPHISM, SINGLE NUCLEOTIDE

Single nucleotide polymorphisms of the N-formyl peptide receptor in localized juvenile periodontitis. Gwinn MR, et al. 1194

POLYTETRAFLUOROETHYLENE

Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008

POLYTETRAFLUOROETHYLENE/therapeutic use

Evidence for healing of Class II and Class III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490

Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139

Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239

*PORPHYROMONAS GINGIVALIS*

Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730

Comparison of fluorescence microscopy and culture assays to quantitate adhesion of *Porphyromonas gingivalis* to mono- and multi-layered pocket epithelium cultures. Papaioannou W, et al. 618

Effect of initial periodontal therapy on the frequency of detecting *Bacteroides forsythus, Porphyromonas gingivalis,* and *Actinobacillus actinomycetemcomitans.* Takamatsu N, et al. 574

The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289

Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861

Opsonophagocytic effect of antibody against recombinant conserved 40-kDa outer membrane protein of *Porphyromonas gingivalis.* Saito S, et al. 610

Periodontal pathogens stimulate CC-chemokine production by mononuclear and bone-derived cells. Jiang Y, et al. 1472

Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens,* and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

Soluble CD 14-dependent intercellular adhesion molecule-1 induction by *Porphyromonas gingivalis* lipopolysaccharide in human gingival fibroblasts. Masaka T, et al. 772

Tobacco use and the periodontal patient, 1419

POVIDONE-IODINE/therapeutic use

Povidone-iodine's effects and role in the management of periodontal diseases: a review. Greenstein G. 1397

PRACTICE MANAGEMENT

Selecting a practice location: factors that periodontists may consider. Waldman HB. 95

PREGNANCY

Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604

PREGNANCY/adverse effects

The influence of general health and socio-cultural variables on the periodontal condition of pregnant women. Machuca G, et al. 779

*PREVOTELLA INTERMEDIA*

Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861

Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens,* and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

*PREVOTELLA NIGRESCENS*

Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens,* and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

PRISTINAMYCIN/therapeutic use

Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans.* Madinier IM, et al. 888

PROGESTERONE/adverse effects

Effects of sex hormones on production of interleukin-1 by human peripheral monocytes. Morishita M, et al. 757

PROGESTERONE/therapeutic use

Modulation of androgen metabolism by estradiol-17 and progesterone, alone and in combination, in human gingival fibroblasts in culture. Tilakaratne A, et al. 1017

PROGNOSIS

Clinical evaluation of the treatment of Class II furcation involvements with bioabsorbable barriers alone or

associated with demineralized freeze-dried bone allografts. De Leonardis D, et al. 8
Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49
PROSTAGLANDIN E
Involvement of cyclooxygenase-2 in interleukin-1 - induced prostaglandin production by human periodontal ligament cells. Noguchi K, et al. 902
PROSTATIC NEOPLASMS
Gingival metastasis from a prostate adenocarcinoma: report of a case. Piattelli A, et al. 441
PROTEASES/analysis
*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303
PROTEASES, MATRIX METALLO
*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303
PROTEASES, SERINE
*In situ* localization and characterization of active proteases in chronically inflamed and healthy human gingival tissues. Sarment DP, et al. 1303
PROTEIN, BONE MORPHOGENETIC
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Growth factors regulated expression of osteoblast-associated genes. Strayhorn CL, et al. 1345
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
PROTEIN, CELL CYCLE
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435
PROTEIN, COLLAGENOUS
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
PROTEIN, EXTRACELLULAR MATRIX
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
PROTEIN, MICROBIAL HEAT-SHOCK
Humoral immunity to stress proteins and periodontal disease. Lopatin DE, et al. 1185
PROTEIN, NON-COLLAGEN
Chlorhexidine-induced changes to human gingival fibroblast collagen and non-collagen protein production. Mariotti AJ, et al. 1443
PROTEIN, RECOMBINANT
Bone regeneration by recombinant human bone morphogenetic protein-2 in rat mandibular defects. An expeerimental model of defect filling. Higuchi T, et al. 1026
Evaluation of 2 novel approaches for assessing the ability of demineralized freeze-dried bone allograft to induce new bone formation. Carnes DL, Jr., et al. 353
PROTEIN SYNTHESIS INHIBITORS
Effects of butyrate and propionate on the adhesion, growth, cell cycle kinetics, and protein synthesis of cultured human gingival fibroblasts. Jeng J-H, et al. 1435
PROTEIN, STRESS
Humoral immunity to stress proteins and periodontal disease. Lopatin DE, et al. 1185
PROTEINASES
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
PSYCHOMOTOR DISORDERS
Gingival fibromatosis combined with cherubism and psychomotor retardation: a rare syndrome. Yalçin S, et al. 201
PYROPHOSPHATES/adverse effects
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803

**Q**

QUESTIONNAIRES, MEDICAL
Relationship between a self-reported health questionnaire and laboratory tests at initial office visits. Thompson KS, et al. 1153

**R**

RACIAL STOCK
Linkage disequilibrium of interleukin-1 genetic polymorphisms with early-onset periodontitis. Diehl SR, et al. 418
RADIOGRAPHIC TRACERS
Disposition of alendronate following delivery in a rat jaw. Yaffe A, et al. 893
RADIOGRAPHY, DENTAL
Evidence for healing of Class II and Class III furcations 24 months after guided tissue regeneration therapy: digital subtraction and clinical measurements. Eickholz P, et al. 1490
A radiographic evaluation of bone healing around submerged and non-submerged dental implants in beagle dogs. Fiorellini JP, et al. 248
RADIOGRAPHY, DENTAL/methods
The accuracy of radiographic methods in assessing the outcome of periodontal regenerative therapy. Toback GA, et al. 1479
RECEPTORS, VITAMIN D
Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032
REPRODUCIBILITY OF RESULTS
Option-4 algorithm for third generation disc probe: agreement of selected site-specific relative attachment level measurements and detection of longitudinal site-specific attachment level change. Breen HJ, et al. 159

# Index

RESPIRATORY BURST
Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179
RESPIRATORY TRACT INFECTIONS/pathogenesis
Role of oral bacteria in respiratory infection. Scannapieco FA. 793
RISK FACTORS
Association of a vitamin D receptor gene polymorphism with localized early-onset periodontal diseases. Hennig BJW, et al. 1032
Combined effects of caffeine and prostaglandin $E_2$ on the proliferation of osteoblast-like cells (UMR106-01). Kamagata-Kiyoura Y, et al. 283
Compliance with supportive periodontal therapy. Part 1. Risk of non-compliance in the first 5-year period. Novaes AB, Jr., et al. 679
Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens*, and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269
Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49
Risk assessment of bovine spongiform encephalopathy transmission through bone graft material derived from bovine bone used for dental applications. Sogal A, et al. 1053

S

SALIVA/analysis
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
The effect of smoking and periodontal treatment on salivary composition in patients with established periodontitis. Zuabi O, et al. 1240
SALIVA/enzymology
Role of oral bacteria in respiratory infection. Scannapieco FA. 793
SALIVA/physiology
Role of oral bacteria in respiratory infection. Scannapieco FA. 793
SALIVARY GLAND NEOPLASMS
Myoepithelioma of the gingiva. Report of a case. Piattelli A, et al. 683
SANGUINARINE/therapeutic use
Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
SCALING
Changes in gingival crevicular fluid levels of immunoglobulin A following therapy: association with attachment loss. Grbic JT, et al. 1221
Comparison of Nd:YAG laser versus scaling and root planing in periodontal therapy. Liu C-M, et al. 1276
Improvement of multiple facial gingival recession by non-surgical and supportive periodontal therapy. A case report. Ando K, et al. 909
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. I. Long-term clinical observations. Mongardini C, et al. 632
One stage full- versus partial-mouth disinfection in the treatment of chronic adult or generalized early-onset periodontitis. II. Long-term impact on microbial load. Quirynen M, et al. 646
Progression and treatment of chronic adult periodontitis. Preshaw PM, et al. 1209
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Two multi-center studies evaluating locally delivered doxycycline, placebo control, oral hygiene, and scaling and root planing in the treatment of periodontitis. Garrett S, et al. 490
SCALING/instrumentation
Acoustic microstreaming: detection and measurement around ultrasonic scalers. Khambay BS, et al. 626
SCHNEIDERIAN MEMBRANE
A classification system for sinus membrane perforations during augmentation procedures with options for repair. Vlassis JM, et al. 692
SCLERODERMA, SYSTEMIC
CREST syndrome and periodontal surgery: a case report. Stanford TW, Jr., et al. 536
SEROTYPE
Antibody reactive with *Porphyromonas gingivalis* serotypes K1-6 in adult and generalized early-onset periodontitis. Califano JV, et al. 730
Bacterial adhesion of *Actinobacillus actinomycetemcomitans* serotypes to titanium implants: SEM evaluation. A preliminary report. Ökte E, et al. 1376
SINUS LIFT
Periodontal and computer tomography scanning evaluation of endosseous implants in conjunction with sinus lift procedures. A 6-case series. Murakami K, et al. 1254
SKIN DISEASES, VESICULOBULLOUS
Gingival lesions diagnosed as pemphigus vulgaris in an adolescent. Case report. Navarro CM, et al. 808
SMEAR LAYER
Effect of a carbon dioxide laser on periodontally involved root surfaces. Misra V, et al. 1046
SMOKING
The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361
Longitudinal effect of non-surgical treatment and systemic metronidazole for 1 week in smokers and non-smokers with refractory periodontitis: a 5-year study. Söder B, et al. 761
Tobacco use and the periodontal patient. Position paper. 1419
SMOKING/adverse effects
Effect of periodontitis and smoking on blood leukocytes and acute-phase proteins. Fredriksson MI, et al. 1355

# Index

The effect of smoking and periodontal treatment on salivary composition in patients with established periodontitis. Zuabi O, et al. 1240

Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens*, and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49

The relationship between the interleukin-1 periodontal genotype and implant loss. Initial data. Wilson TG, Jr., et al. 724

Smoking and patterns of bone loss in early-onset periodontitis. Mullally BH, et al. 394

Smoking influences decision making in periodontal therapy: a retrospective clinical study. Papantonopoulos GH. 1166

Tobacco use and the periodontal patient. Position paper. 1419

Type 1 diabetes mellitus and oral health assessment of periodontal disease. Moore PA, et al. 409

SMOKING CESSATION

The association between smoking cessation and periodontal status and salivary proteinase levels. Liede KE, et al. 1361

SOFT TISSUE

Rotated split palatal flap for soft tissue primary coverage over extraction sites with immediate implant placement. Description of the surgical procedure and clinical results. Nemcovsky CE, et al. 926

SOFT TISSUE NEOPLASMS

Gingival metastasis froma prostate adenocarcinoma: report of a case. Piattelli A, et al. 441

SPECIALISTS/manpower

Selecting a practice location: factors that periodontists may consider. Waldman HB. 95

SPIRAMYCIN/therapeutic use

Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888

*STAPHYLOCOCCUS AUREUS*

Possible potentiation of toxins from *Prevotella intermedia, Prevotella nigrescens*, and *Porphyromonas gingivalis* by cotinine. Sayers NM, et al. 1269

STATISTICAL RESEARCH

Clinical versus statistical signifiance. Rethman MP, et al. 700

*STREPTOCOCCUS MUTANS*

Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

*STREPTOCOCCUS ORALIS*

Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

*STREPTOCOCCUS SANGUIS*

Periodontal findings and systemic antibody responses to oral microorganisms in Behçet's disese. Çelenligil-Nazliel H, et al. 1449

STRESS

The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289

Relationship of stress, distress, and inadequate coping behaviors to periodontal disease. Genco RJ, et al. 711

STRESS, PSYCHOLOGICAL

The effect of stress on the inflammatory response to *Porphyromonas gingivalis* in a mouse subcutaneous chamber model. Shapira L, et al. 289

Stress and immunity: implications for viral disease and wound healing. Rozlog LA, et al. 786

SUPEROXIDES

Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179

SURGICAL FLAPS

Coronally advanced flap procedure for root coverage. Is flap thickness a relevant predictor to achieve root coverage? A 19-case series. Baldi C, et al. 1077

Coronally advanced flap procedure for root coverage. Treatment of root surface: root planing versus polishing. Pini-Prato G, et al. 1064

Effective periodontal treatment in a patient with type IIA von Willebrand's disease: report of a case. Izumi Y, et al. 548

Increasing the amount of attached gingiva using a modified apically repositioned flap. Carnio J, et al. 1110

Maintenance of soft tissue closure following guided bone regeneration: technical considerations and report of 723 cases. Fugazzotto PA. 1085

Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329

Rotated split palatal flap for soft tissue primary coverage over extraction sites with immediate implant placement. Description of the surgical procedure and clinical results. Nemcovsky CE, et al. 926

Topical and systemic antimicrobial therapy in guided tissue regeneration. Zucchelli G, et al. 239

SURVIVAL RATE

Full-arch restoration of the jaw with fixed ceramometal prosthesis: late implant placement. Chaushu G, et al. 90

A long-term evaluation of composite-bonded natural/resin teeth as replacement of lower incisors and terminal periodontitis. Quirynen M, et al. 205

SYSTEMIC DISEASES

Relationship between a self-reported health questionnaire and laboratory tests at initial office visits. Thompson KS, et al. 1153

**T**

TESTOSTERONE

Androgens modulate interleukin-6 production by gingival fibroblasts in vitro. Gornstein RA, et al. 604

# Index

TETRACYCLINE/therapeutic use
Microbiological response of localized sites with recurrent periodontitis in maintenance patients treated with tetracycline fibers. Wong M-Y, et al. 861
Resistance profile survey of 50 periodontal strains of *Actinobacillus actinomycetemcomitans*. Madinier IM, et al. 888
A six-month comparison of three periodontal local antimicrobial therapies in persistent periodontal pockets. Kinane DF, et al. 1
Tetracycline-coated polytetrafluoroethylene barrier membranes in the treatment of intraosseous periodontal lesions. Zarkesh N, et al. 1008
TISSUE PLASMINOGEN ACTIVATORS
Antisense oligonucleotide of tissue inhibitor of metalloproteinase-1 induces the plasminogen activator activity in periodontal ligament cells. Shibata Y, et al. 1158
TISSUE TRANSPLANTATION
Retained free gingival graft rugae: a 9-year case report. Breault LG, et al. 438
TITANIUM
Bacterial adhesion of *Actinobacillus actinomycetemcomitans* serotypes to titanium implants: SEM evaluation. A preliminary report. Ökte E, et al. 1376
A comparison of endosseous dental implant surfaces. Cochran DL. 1523
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
Microvascular changes after placement of titanium implants: scanning electron microscopy observations of machined and titanium plasma-sprayed implants in dogs. Matsuo M, et al. 1330
Microbiota of successful osseointegrated dental implants. Lee KH, et al. 131
Recombinant human bone morphogenetic protein-2 stimulation of bone formation around endosseous dental implants. Cochran DL, et al. 139
TOBACCO
The effects of tobacco products on the attachment and growth of periodontal ligament fibroblasts. James JA, et al. 518
Tobacco use and the periodontal patient. Position paper. 1419
TOOTH ABNORMALITIES/pathology
Successful treatment of pulpal-periodontal combined lesion in a birooted maxillary lateral incisor with concomitant palato-radicular groove. A case report. Wei P-C, et al. 1540
TOOTH EXTRACTION
A new injectable calcium phosphate biomaterial for immediate bone filling of extraction sockets: a preliminary study in dogs. Gauthier O, et al. 375
TOOTH EXTRACTION/therapy
Rotated split palatal flap for soft tissue primary coverage over extraction sites with immediate implant placement. Description of the surgical procedure and clinical results. Nemcovsky CE, et al. 926
TOOTH LOSS
The informativeness of attachment loss on tooth mortality. Hujoel PP, et al. 44
TOOTH LOSS/etiology
Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49
TOOTH LOSS/prevention and control
Prognosis versus actual outcome. IV. The effectiveness of clinical parameters and IL-1 genotype in accurately predicting prognoses and tooth survival. McGuire MK, et al. 49
TOOTH MIGRATION
Spontaneous repositioning of pathologically migrated teeth. Gaumet PE, et al. 1177
TOOTH MOVEMENT
Spontaneous repositioning of pathologically migrated teeth. Gaumet PE, et al. 1177
TOOTH LOSS/therapy
A long-term evaluation of composite-bonded natural/resin teeth as replacement of lower incisors and terminal periodontitis. Quirynen M, et al. 205
TOOTH ROOT
Effect of a carbon dioxide laser on periodontally involved root surfaces. Misra V, et al. 1046
Human periodontal ligament fibroblast behavior on chemically conditioned dentine: an in vitro study. Rompen EH, et al. 1144
In vitro stimulation of human gingival epithelial cell attachment to dentin by surface conditioning. Vanheusden AJ, et al. 594
TOOTH ROOT/microbiology
Longitudinal study of dental implants in a periodontally compromised population. Sbordone L, et al. 1322
TOOTH ROOT/surgery
Comparative clinical study of a bioabsorbable membrane and subepithelial connective tissue graft in the treatment of human gingival recession. Borghetti A, et al. 123
Coronally advanced flap procedure for root coverage. Is flap thickness a relevant predictor to achieve root coverage? A 19-case series. Baldi C, et al. 1077
Coronally advanced flap procedure for root coverage. Treatment of root surface: root planing versus polishing. Pini-Prato G, et al. 1064
Human histologic evaluation of root coverage obtained with a connective tissue with partial thickness double pedicle graft. A case report. Harris, RJ. 813
Subgingival acellular dermal matrix allograft for the treatment of gingival recession: a case report. Tal H. 1118
Treatment of molar furcation involvement using root separation and a crown and sleeve-coping telescopic denture. A longitudinal study. Hou G-L, et al. 1098
TOOTHBRUSHING/adverse effects
Coronally advanced flap procedure for root coverage. Is flap thickness a relevant predictor to achieve root coverage? A 19-case series. Baldi C, et al. 1077
Coronally advanced flap procedure for root coverage. Treatment of root surface: root planing versus polishing. Pini-Prato G, et al. 1064

Improvement of multiple facial gingival recession by non-surgical and supportive periodontal therapy. A case report. Ando K, et al. 909
TOOTHBRUSHING/instrumentation
A comparison of the efficacy of 2 powered toothbrushes in affecting plaque accumulation, gingivitis, and gingival bleeding. Barnes CM, et al. 840
TOOTHPASTE/therapeutic use
Effectiveness of a sanguinarine regimen after scaling and root planing. Tenenbaum H, et al. 307
TORUS, MANDIBULAR
Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329
Pronounced palatal and mandibular tori observed in a patient with chronic phenytoin therapy: a case report. Sasaki H, et al. 445
TORUS, PALATAL
Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329
Pronounced palatal and mandibular tori observed in a patient with chronic phenytoin therapy: a case report. Sasaki H, et al. 445
TRIGLYCERIDES
Association between periodontitis and hyperlipidemia: cause and effect? Cutler CW, et al. 1429
Heightened gingival inflammation and attachment loss in Type 2 diabetics with hyperlipidemia. Cutler CW, et al. 1313
TUBERCLES, PALATAL
Palatal tubercles, palatal tori, and mandibular tori: prevalence and anatomical features in a U.S. population. Sonnier KE, et al. 329
TUMOR NECROSIS FACTOR
The influence of interleukin gene polymorphism on expression of interleukin-1β and tumor necrosis factor-α in periodontal tissue and gingival crevicular fluid. Engebretson SP, et al. 567
Polyamines found in the inflamed periodontium inhibit priming and apoptosis in human polymorphonuclear leukocytes. Ratasirayakorn W, et al. 179
Regulation of gingival fibroblast interleukin-6 secretion by cyclosporin A. Sinha-Morton R, et al. 1464
TWINS
Periodontal bacteria in adult twins. Michalowicz BS, et al. 263

U

ULTRASONICS/instrumentation
Acoustic microstreaming: detection and measurement around ultrasonic scalers. Khambay BS, et al. 626
Aerosol and splatter production by focused spray and standard ultrasonic inserts. Rivera-Hidalgo F, et al. 473
UROKINASE
Increase of urokinase-type plasminogen activator receptor expression in human gingival fibroblasts by *Porphyromonas gingivalis* lipopolysaccharide. Ogura N, et al. 402

V

VIRAL DISEASES/pathogenesis
Stress and immunity: implications for viral disease and wound healing. Rozlog LA, et al. 786
VITAMIN C
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
VON WILLEBRAND'S DISEASE
Effective periodontal treatment in a patient with type IIA von Willebrand's disease: report of a case. Izumi Y, et al. 548

W

WOMEN
The association between osteopenia and periodontal attachment loss in older women. Weyant RJ, et al. 982
WOUND HEALING
Comparison of bioactive glass to demineralized freeze-dried bone allografts in the treatment of intrabony defects around implants in the canine mandible. Hall EE, et al. 526
Destructive membranous periodontal disease (ligneous periodontitis). Günhan O, et al. 919
Effects of occlusal loading on ankylosis, bone, and cementum formation during bone morphogenetic protein-2-stimulated periodontal regeneration in vivo. King GN, et al. 1125
Enhanced production of mineralized nodules and collagenous proteins in vitro by calcium ascorbate supplemented with vitamin C metabolites. Rowe DJ, et al. 992
Laser irradiation of bone: II. Healing response following treatment by $CO_2$ and Nd:YAD lasers. Friesen LR, et al. 75
Long-term results of a minimally invasive surgical approach for bone grafting. Harrel SK, et al. 1558
Maintenance of soft tissue closure following guided bone regeneration: technical considerations and report of 723 cases. Fugazzotto PA. 1085
A minimally invasive surgical approach for periodontal regeneration: surgical technique and observations. Harrel SK. 1547
Monoclonal antibodies against integrin subunits α6 and β1 inhibit migration of gingival epithelium in organ culture. Gräber H-G, et al. 388
Progression and treatment of chronic adult periodontitis. Preshaw PM, et al. 1209
Role of interactions between integrins and extracellular matrix components in healthy epithelial tissue

and establishment of a long junctional epithelium during wound healing: a review. Gräber H-G, et al. 1511
Rotated split palatal flap for soft tissue primary coverage over extraction sites with immediate implant placement. Description of the surgical procedure and clinical results. Nemcovsky CE, et al. 926
Spontaneous repositioning of pathologically migrated teeth. Gaumet PE, et al. 1177
Stress and immunity: implications for viral disease and wound healing. Rozlog LA, et al. 786

X

XEROSTOMIA
Factors contributing to adverse soft tissue reactions due to the use of tartar control toothpastes: report of a case and literature review. DeLattre VF. 803
